

Personal Attention

Have a question about your fundraiser? Need help getting more participation? Have a problem? We are here when you need us.

Your fundraising advisor is easy to reach, and our trained staff is available during business hours at 1-800-359-7028

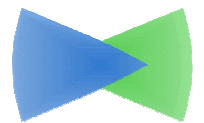

Getting you to work with Stevco is only part of the job for our Fundraising Advisors. In fact, that part is more public service. Where your personal fundraising advisor really earns his or her keep is in helping you set up the details of the fundraiser, being there to answer your questions as they come up, and always being reachable throughout the fundraiser.

We also have a trained office staff that you can call toll free at 1-800-359-7028. The office staff can answer questions about your fundraiser, help you reschedule dates if need be, and are just all around helpful!

We don't use an annoying phone tree. When you call the office, we can get things done for you. We think you will like doing your fundraiser with nice people who care about you!
