

Quality Products at Store Prices

"I mean, I know it's a fundraiser, but do these products have to be so overpriced?"

The answer is no, they do not. You can sell quality products at store prices and still make a good profit.

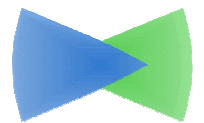

You don't have to sell overpriced items to make a profit on your fundraiser. In fact, fundraising participation has been eroding over the last few years, due in part to products of lesser quality and higher price.

Instead, sell products that people already enjoy buying, at prices they are used to paying. At Stevco, we offer a great variety of high quality products that are not ridiculously overpriced. We don't play tricks with our pricing. Your customers get value when they buy through a Stevco fundraiser.

We invite you to compare the quality and price of our products with other fundraisers you are considering. You will find that our products are better, bigger, and less expensive than our competitors. This means a more solid fundraiser that you can be proud to repeat year after year.
