

# Fundraising Toolkit

*Helpful little email reminders that tell you what you should be doing at each step of the fundraiser, based on your actual dates.*

*Now that's helpful!*

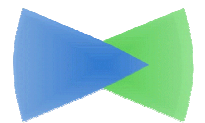

**Do you ever get to a certain point in your fundraiser and wonder what you are supposed to do next?** You won't have to with Stevco's unique Fundraising Toolkit email system.

**We send out helpful instructions via email at important points during your fundraiser.** These emails will help you stay on top of your fundraiser and stay organized throughout the sale.

And since we send out the emails based on your sale dates, you won't have to worry about finding an instruction sheet that was handed to you at the beginning of the sale or remembering what it was exactly that the sales rep said about delivery or sending orders in.

**This is another free service from Stevco designed to make running your fundraiser hassle free.**
